SUPPORT FOR WEST COAST EMERGING FARMER

Umoja Energy Wind Farm has announced funding as well as business mentoring for Theewatersvlei Boerdery. The local farm incorporates livestock and grain crops such as wheat, oats and lipien. The wheat produced on the farm is sold commercially, which means that the funding for machinery will impact directly on the farms production and turnover.

“The funding we received for a harvester is vital to the sustainable upliftment of our farm, and will result in long lasting benefits, as we continue to grow stronger and make a difference in our community,” said Freddie Papier, farmer at Theewatersvlei Boerdery.

ECD MENTORS UPSKILLED TO SUPPORT PARENTS

Parents are being trained to run playgroups in their local communities to help young children prepare for school.

Training workshops focus on a number of important topics relating to the well-being of children and the roles and responsibilities of parents, amongst others.

At the last Umoja Energy community meeting, we were proud to award each parent who attended the training with a certificate.

EXTENDING BENEFICIARY PROGRAMMES

Umoya Energy Wind Farm is looking to expand their socio-economic initiatives to the greater 50km radius beneficiary communities.

An Asset Mapping and Needs Analysis is underway to help identify projects that are best suited to bring about long term development within the communities of Saldanha Bay Local Municipality; Bergriver Municipality and Swartland Municipality.

"The study will help us identify priority needs within these communities and allow us to make informed decisions about programmes which will deliver maximum, impactful and sustainable change."

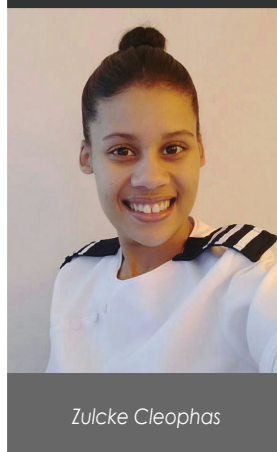

"Wonderbag's are a handy and colourful addition to the completed homes. The bag allows food that has been brought to the boil to finish cooking while in the bag, helping to reduce the use of electricity and save time. This is in line with our objective of making these homes more energy efficient"

COMPLETED PHASE 2 HOMES RECEIVE NON-ELECTRIC SLOW COOKERS

We are pleased to announce that all homes that have been completed during the second phase of the **Hopefield Home Improvement Project**, will receive non-electric slow cookers, called Wonderbag's.

By the end of December 2018, we were able to complete **plumbing upgrades in 137 houses**, **electrical upgrades in 236 houses** and we were able to **install ceilings in 215 houses**.

NEW SCHOLARSHIPS

Zulcke Cleophas

After receiving a total of nine applications, Umoya Energy would like to extend their congratulations to the new Scholarship recipients, and wish them all the best for the year ahead:

- **Joharron Linnert**, from Hopefield, will be studying towards a B Ed: Senior phase & FET Teaching at CPUT in Mowbray
- **Zulcke Cleophas**, from Hopefield, will be studying towards a BTECH- Nursing Science at CPUT in Worcester.
- **Karli Frieslaar**, from Hopefield, will be studying towards a QCTO Chef at the West Coast Chef School.

HOLVLEI PRIMARY SCHOOL VISITS WORLD OF BIRDS

Umoya Energy is proud to have been able to assist **Holvlei Primary School** with their annual educational excursion to **World of Birds Wildlife Sanctuary and Monkey Park**, followed by a boat trip to **Seal Island**. The learners had a wonderful time learning while out and about!

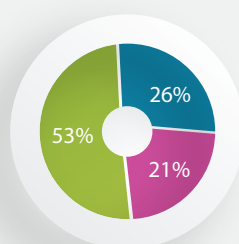

2019 UPCOMING COMMUNITY MEETINGS

Details of the next meeting will be placed on community noticeboards and disseminated at schools.
